Assignment – 0 **Name: Kasim Ghanchi** **Roll No: 24102C0015** **Class: CMPN C, T.E**		
COURSE INSIGHTS		
Q. No.		Details
Q.1	1a	How many buckets are there in VIT autonomous curriculum (syllabus)? *-> 8 buckets/verticals as per VIT autonomous curriculum: BSC/ESC, Program Courses, Multidisciplinary Courses, Skill Courses, HSSM, Experiential Learning, Liberal Learning, and Value Added Courses (VAC/MOOC).*
	1b	In which bucket is this course (subject) included? *-> This course (E-waste & Environmental Management) is included in the HSSM (Humanities, Social Science & Management) bucket.*
	1c	How many credits need to be completed from this Bucket? *-> As per the AAP, this is a 2-credit course; the bucket-wise credit requirement is not specified in the AAP and should be confirmed from the student's own curriculum/programme structure sheet.*
	1d	How many credits from this bucket have you completed till now i.e. at the end of last semester? *-> This is a personal, student-specific detail (credits completed till the end of the last semester) — to be filled in by the student from their own grade/credit record; not available in the AAP.*
	1e	How many credits does this course have? *-> This course carries 2 credits (Theory: 2 credits, Practical/TW: Nil, Total: 2 credits).*
Q.2	2a	Have you gone through the curriculum of your course? *-> Yes, the curriculum/AAP of the course has been gone through.*
	2b	Is there a pre-requisite of this course? *-> Yes. As per the AAP, the prerequisite course is Environmental Science (studied at 12th standard level).*
	2c	If yes, do you clearly remember the concepts of the pre-requisite course? *-> Yes, the basic concepts of Environmental Science (12th std.) are recalled/remembered.*
	2d	Pl. mention the preparations you will need to do for this course e.g. revising which earlier course/s, software installations etc.. *-> Preparation needed: revise basic concepts of Environmental Science (the prerequisite course); no specific software installation is required, though basic familiarity with Excel/Python/Tableau will help for the Data Analysis Activity (Assignment 7) which involves visualizing e-waste datasets.*

	2e	List the names of future course/s, if any, which build on this course i.e. this course is their Pre-requisite. *-> As per the AAP, the future courses that build on this course are: Environmental Management (Semester 7 or 8) and Sustainability Management (Semester 7 or 8).*
Q.3	3a	List all the Course Outcomes (COs) of this course and mention which CO you find most useful. *-> The Course Outcomes (COs) are:* *CO1: Understand need and concept of e-waste management & recycling.* *CO2: To gain the knowledge of legislative rules and regulations related to E-waste management.* *CO3: Recognize the tools and technologies required for e-waste recycling assessment and monitoring.* *CO4: Address contemporary issues and analyse the local and global impact of computing and engineering solutions on individuals, organizations, and society. CO5: Apply the knowledge about E-waste management in routine daily life to minimize the hazards.* *Most useful CO: CO1, as it builds the foundational understanding of e-waste and recycling needed to apply the concepts in all other COs.*
	3b	How are these COs mapped to the Program Outcomes (POs)? ->

CO \ PO	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
CO1	1/12	-	-	-	-	-	1/12	-	-	-	-	-
CO2	-	-	-	-	-	2/12	3/12	-	-	-	-	-
CO3	1/12	-	-	1/12	-	-	-	-	-	-	-	-
CO4	2/12	-	-	1/12	3/12	3/12	-	-	-	-	-	-
CO5	-	-	-	2/12	-	-	1/12	-	-	-	-	-

Q.4	4	Where do you see the applications of this course in real life and industry? *-> Real-life and industry applications include: proper disposal and recycling of used electronic gadgets (computers, TVs, mobile phones, refrigerators, charging cables, etc.); compliance with India's E-waste Management Rules (2011/2016) and Hazardous Waste Rules (2008) by manufacturers/recyclers; resource recovery (gold, copper, palladium etc.) by companies such as Eco Recycling Ltd (Ecoreco), Mumbai; environmental clearance/EIA processes for industries; and green building & carbon-credit practices adopted by industry.*
Q.5	5a	Select one Top university outside India and mention the name of their similar course. *-> Reference (as available in the AAP): a similar course, 'Electronic Waste Management – Issues and Challenges,' is offered by Prof. Brajesh Kumar Dubey at IIT Kharagpur (available on NPTEL). The AAP does not list a top university outside India; if a foreign-university example is specifically required, the student should search NPTEL/edX/Coursera equivalents or a*

		university such as MIT/Stanford offering an e-waste/environmental management elective and compare accordingly.
	5b	How does their curriculum compare with our course? *-> Compared to the IIT Kharagpur NPTEL course (an in-depth 30-hour elective focused specifically on e-waste issues and challenges), our course (VEC02, 2 credits, ~30 teaching hours) covers e-waste management within a broader Environmental Management/HSSM framework spanning 6 modules — e-waste* *overview & recycling, health impacts, Indian & international legislation, technological advances (green buildings, carbon credit, disaster management, RS/GIS) and environmental assessment (EIA, ISO standards, pollution control boards) — giving a wider, application-oriented treatment rather than a narrowly focused technical deep-dive.*
Q.6	6a	How many lecture sessions are planned for this course? *-> 30 lecture sessions are planned for this course (across 15 weeks, as per the Consolidated Course Lesson Plan), covering 6 modules (6+5+4+6+4+5 = 30 teaching hours).*
	6b	List the suggested Textbooks, Reference books, E-books and Research papers related to the course. Are these resources available in our library? If yes, please mention their accession numbers.

		-> Textbook: 'Environmental Science' by G. Tyler Miller Jr. and Scott Spoolman, Brooks/Cole, 13th Edition — Available in library: Yes. *Reference books: (1) Electronic Waste Management – Hester R.E. & Harrison R.M., Science, 1st Ed. (Not in library); (2) Electronic Waste (Toxicology and Public Health Issues) – Fowler B., Elsevier (Not in library); (3) E-waste: implications, regulations, and management in India and current global best practices – Johri R., TERI Press (Not in library); (4) Environmental Management, Text Book and Cases – Krishnamoorthy B., PHI Learning (Not in library); (5) Environmental Science and Engineering – Keerthinarayana & Daniel Yesudian, Hi-Tech Publications (Available in library: Yes).* *E-books: Electronic Waste Management Rules 2016 (CPCB, Delhi) and 'Waste electrical and electronic equipment (WEEE): Flows, quantities and management, a global scenario' (Mihai F.C. et al., HAL Open Science) — Not available in library.* *Research papers (5, per AAP): E-Waste: Current Research and Future Perspective on Developing Countries (Halim & Suharyanti, 2020); E-Waste Management (Saravanamurthy & team, 2018); E-waste Management for Environmental Sustainability (Mor et al., 2021); E-Waste Management: As a Challenge to Public Health in India (Monica & Kishore, 2010); E-Waste Management in India: A Study of Current Scenario (Garg & Adhana, 2019) — none of these are available in the library.* *Accession numbers: not mentioned in the AAP for the items that are available in the library.*

	6c	What resources are currently uploaded on V-refer? *-> As per the AAP, module-wise resources for all 6 modules (Modules 1–6) are uploaded on V-refer (marked 'Yes' for V-refer availability for every module).*
	6d	What are the stipulated office hours of faculty for doubt solving sessions? *-> Office hours for doubt-solving: Thursday, 4:00 pm to 5:00 pm, Venue: D101, Faculty Room (TE CMPN, 270 students).*
Q.7	7a	What is the Evaluation Metric for this Theory Course i.e. What are the weightages for ISA, MSE and ESE? *-> Evaluation for this Theory course: ISA = 75 marks, MSE = -- (not applicable), ESE = -- (not applicable). Total = 75 marks.*
	7b	What does ISA comprise of? *-> ISA (75 marks) comprises: Online game quiz (05), Video task (05), Carbon Footprint Calculator (05), Device Anatomy (05), Class test (10), Case study (10),* *Data Analysis Activity (10), Sustainability Reel/Podcast (10), Green Hackathon (10), and Campus Sustainability Consultancy – E-waste Audit + Awareness Campaign (10).*
	7c	What is the evaluation rubric for ISA? *-> The ISA rubric is activity-based, distributed as: Online game quiz – 5M, Video task – 5M, Carbon Footprint Calculator – 5M, Device Anatomy – 5M, Class test –* *10M, Case study – 10M, Data Analysis Activity – 10M, Sustainability Reel/Podcast – 10M, Green Hackathon (mini project) – 10M, Campus Sustainability Consultancy (E-Waste Audit + Awareness Campaign) – 10M — totalling 75 marks (no separate MSE/ESE component).*
	7d	What are the dates of MSE for this course? *-> Not applicable — this course has no MSE component (MSE marks shown as '-' in the Examination Scheme; entire theory assessment of 75 marks is through ISA).*
	7e	What is the date of ESE for this course?
		-> Not applicable — this course has no ESE component (ESE marks shown as '-' in the Examination Scheme; entire theory assessment of 75 marks is through ISA).
Q.8	8a	Is there an allied Practical Course? *-> No, there is no allied Practical course for this subject (Practical scheme shows '--' for Teaching Hours, Credits and Examination Scheme).*
	8b	If yes, how many credits does this Practical course have? *-> Not applicable (No allied Practical course).*
	8c	What is the Evaluation Metric for this allied Practical Course i.e. Weightages for ISA and ESE? *-> Not applicable (No allied Practical course).*
	8d	What are the dates of ESE exam for this allied Practical course? *-> Not applicable (No allied Practical course).*

Q. 9	9	What is the date of declaration of Result? *-> Not specified in the AAP — the exact date of declaration of result is not mentioned; it will be announced by the institute/university after ESE as per the academic calendar.*
Q.10	10	When does the next Academic Term Start? *-> Not explicitly stated in the AAP for the next term; the current Odd Semester (Sem V, 2026-27) runs as per the Semester Duration mentioned in the Lesson Plan. Student should confirm the next term's start date from the official VIT academic calendar / VMIS.*
