ReTechLoop

AI-Powered E-Waste Exchange & Circular Economy Platform

Presented by

Kasim Ghanchi

Roll No.: 24102C0015

2. Problem Statement

Why old electronics often become waste

- People often do not know the actual value of their old electronics.
- Users are unsure whether a device should be reused, refurbished, sold, donated or recycled.
- Usable devices may remain unused or enter improper disposal channels.
- Students, NGOs and refurbishers need affordable electronic equipment.
- There is no single platform connecting owners with the right next user or recycler.

Traditional Cycle

→ Buy

→ Use

→ Upgrade

→ Store / Throw Away

Value is lost

3. Solution

A simple AI-powered circular economy workflow

1

Upload Device

Photo of old electronics

2

AI Assessment

Identify device & condition

3

Value Estimate

Estimate resale/refurbishment value

4

Best-Use

Reuse • Refurbish • Resell • Donate • Recycle

5

Take Action

Buyer, NGO, refurbisher or recycler

Optional doorstep pickup + Digital Circularity Certificate

4. Revenue Generation

Multiple revenue streams without depending mainly on advertising

Revenue Source	Example Activity	Estimated Monthly Revenue
Resale commission	400 devices × ₹250	₹1,00,000
Refurbisher commission	150 devices × ₹300	₹45,000
E-waste collection	300 collections × ₹100	₹30,000
Doorstep collection	250 pickups × ₹100	₹25,000
Premium users	300 users × ₹99	₹29,700
Business subscriptions	10 organisations × ₹3,000	₹30,000
Featured listings	100 listings × ₹100	₹10,000

Projected: ₹2,69,700/month

5. Core Benefits

Value for users, businesses and the environment

Consumers

Recover value from unwanted electronics.

Students & Buyers

Access affordable second-hand devices.

NGOs & Schools

Receive usable devices for social and educational purposes.

Refurbishers

Get a reliable source of used electronics.

Recyclers

Receive verified e-waste collection opportunities.

Environment

Extend product life and reduce unnecessary e-waste.

6. Business Model at a Glance

Turning the linear electronics lifecycle into a circular one

“Don't Waste It — Find Its Next Use.”

ReTechLoop connects technology, people and responsible e-waste management.
